Energyion

Introducing Crompton's range of Super-Efficient ceiling fans powered by ActivBLDC technology that ensures up to 60%* energy savings as compared to conventional fans

ActivBLDC: The Future of Fan Motor Technology

Brushless DC Motor Technology (BLDC) is the latest evolution of electric motor technology that **powers electric vehicles, drones, space rovers** and much more because of its low power consumption and superior reliability.

BLDC motors are highly energy efficient as they use permanent magnets to deliver power with negligible losses instead of conventional motors that use electromagnetic induction that generates heat and wastes energy.

ActivBLDC Advantage

#60% Energy Savings

Save up to ₹1750 per fan as compared to conventional fans in a year

Wide Voltage Range of 90V-300V

No slowing down of the fan at low voltages

*5 Year Warranty

Superior motor technology & superior components for longer life

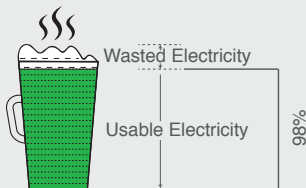

Full Speed Savings

No compromise in Air Delivery. Save and enjoy superior aircomfort at the same time with ActivBLDC technology

High Power Factor

ActivBLDC technology converts 98% of the input current to usable electricity (Active Power) for best-in-class efficiency

Superior Components

100% copper winding, high quality magnets, nylon insulation

Unmatched Savings!

Recover your investment in Energy fans in less than 2 years.
